The article “MicroRNA-28-5p regulates glioma cell proliferation, invasion and migration by targeting SphK1, by H.-S. Chen, A.-Q. Lu, P.-Y. Yang, J. Liang, Y. Wei, Y.-W. Shang, Q. Li, published in Eur Rev Med Pharmacol Sci 2019; 23 (15): 6621-6628–DOI: 10.26355/eurrev_201908_18551–PMID: 31378904” has been withdrawn from the authors stating that “after our follow-up experiments and in-depth research, we found that the previous experimental data had some loopholes and deviations. After the experiment was improved, we found that some experimental data could not be repeated again. To avoid academic adverse effects, we ask the magazine to withdraw the manuscript”.
